A. Aims

This checklist has been produced in accordance with the guidance produced by the DFE in April 2018 in the “GDPR Toolkit for Schools” and is in accordance with the Data Protection rules and Freedom of Information Act (2000) legislation.

This is a checklist developed to enable Academy Operation Managers, Office Managers, SENCO and other School Staff to carry out an efficient annual review and safe destruction of school records and information.

Where there is legal statute behind a requirement this is detailed in the IMTIS document.

B. Safe Destruction of Data

(i) Disposal of records that have reached the end of the minimum retention period allocated

The fifth data protection principle as per the data protection rules (updated for GDPR) states that:

“Personal data processed for any purpose or purposes shall not be kept for longer than is necessary for that purpose or those purposes”

In each school, the leadership must ensure that records that are no longer required for business use are reviewed as soon as possible under the criteria set out so that only the appropriate records are destroyed.

The school review will determine whether records are to be selected for permanent preservation, destroyed, digitised to an electronic format or retained by the school for research or litigation purposes.

Whatever decisions are made they need to be documented as part of the records management policy within the school.

Checklist for Annual Review of School Records and Safe Data Destruction

(ii) Safe destruction of records

All records containing personal information, or sensitive policy information should be made either unreadable or unreconstructable.

- Paper records should be shredded using a cross-cutting shredder
- CDs / DVDs / Floppy Disks should be cut into pieces
- Audio / Video Tapes and Fax Rolls should be dismantled and shredded
- Hard Disks should be dismantled and sanded

Any other records should be bundled up and disposed of to a waste paper merchant or disposed of in other appropriate ways. Do not put records in with the regular waste or a skip unless there is no other alternative.

There are companies who can provide confidential waste bins and other services which can be purchased to ensure that records are disposed of in an appropriate way.

- a) Where an external provider is used it is recommended that all records must be shredded on-site in the presence of an employee. The organisation must also be able to prove that the records have been destroyed by the company who should provide a Certificate of Destruction. Staff working for the external provider should have been trained in the handling of confidential documents.

The shredding needs to be planned with specific dates and all records should be identified as to the date of destruction.

It is important to understand that if the records are recorded as to be destroyed but have not yet been destroyed and a request for the records has been received they MUST still be provided.

- b) Where records are destroyed internally, the process must ensure that all records are recorded are authorised to be destroyed by a member of the Leadership team and the destruction recorded. Records should be shredded as soon as the record has been documented as being destroyed.

(iii) Freedom of Information Act 2000 (FoIA 2000)

The Freedom of Information Act 2000 requires the school to maintain a list of records which have been destroyed and who authorised their destruction

Members of staff should record at least:

- File reference (or other unique identifier);
- File title (or brief description);
- Number of files and date range
- The name of the authorising officer
- Date action taken

Following this guidance will ensure that the school is compliant with the Data Protection rules and the Freedom of Information Act 2000.
