## Y5 Frank Chapman Trip

We hope that our Y5 children have a fantastic time next week on their two night residential trip to Frank Chapman. A big thank you to the four members of staff who are accompanying them.

**Our learning this week:** The children have worked hard to understand negative numbers and have done really well with answering tricky word problems involving negative numbers.

All children impressed us with their problem solving skills when constructing simple circuits.

**Our learning next week:** The children are excited to write their riddle poems and share them with other classes and teachers. We can't wait to solve them!
